learned new skills, and gained knowledge about products, technologies, or services that they can apply to their career, work, or project.

In Their Words...

"My first time attending AEE World, and it has truly exceeded all my expectations! It's been an incredible experience meeting so many passionate people, all driven by the same purpose —making our world a better place. Now I understand why everyone keeps coming back year after year to reunite with the AEE family."

"It was a phenomenal conference with excellent structured networking. I feel reinvigorated in my day job and am looking forward to World 2026!"

"I found it very useful to see what the rest of my industry is doing outside my company. It's important that we see what is happening around us and AEE World is a great way to do just that."

"I saw not just cutting-edge innovations for an energy-efficient future at the AEE conference, but also real-world projects that have been carried out and produced tangible results. Most importantly I was motivated to start my own energy business."

"AEE World was a turning point for me. I met incredible mentors, built lasting friendships, and left more motivated than ever to make an impact in energy."

"I have been attending annual AEE World conferences for many years, yet each conference offers something interesting and different that enhances me professionally as well as personally. I never cease to be amazed by the professional manner that the entire event is organized and executed given the complexity of doing so. I highly recommend this event to anyone interested in expanding their knowledge and contacts in the energy industry."

Technology Expo

The expo hall was set up well, with a variety of vendors ranging from industrial to commercial solutions.

The conference was an incredible experience with an engaging expo showcasing innovative technologies and solutions across the energy sector.

I liked the Expo and the networking opportunities with other attendees.

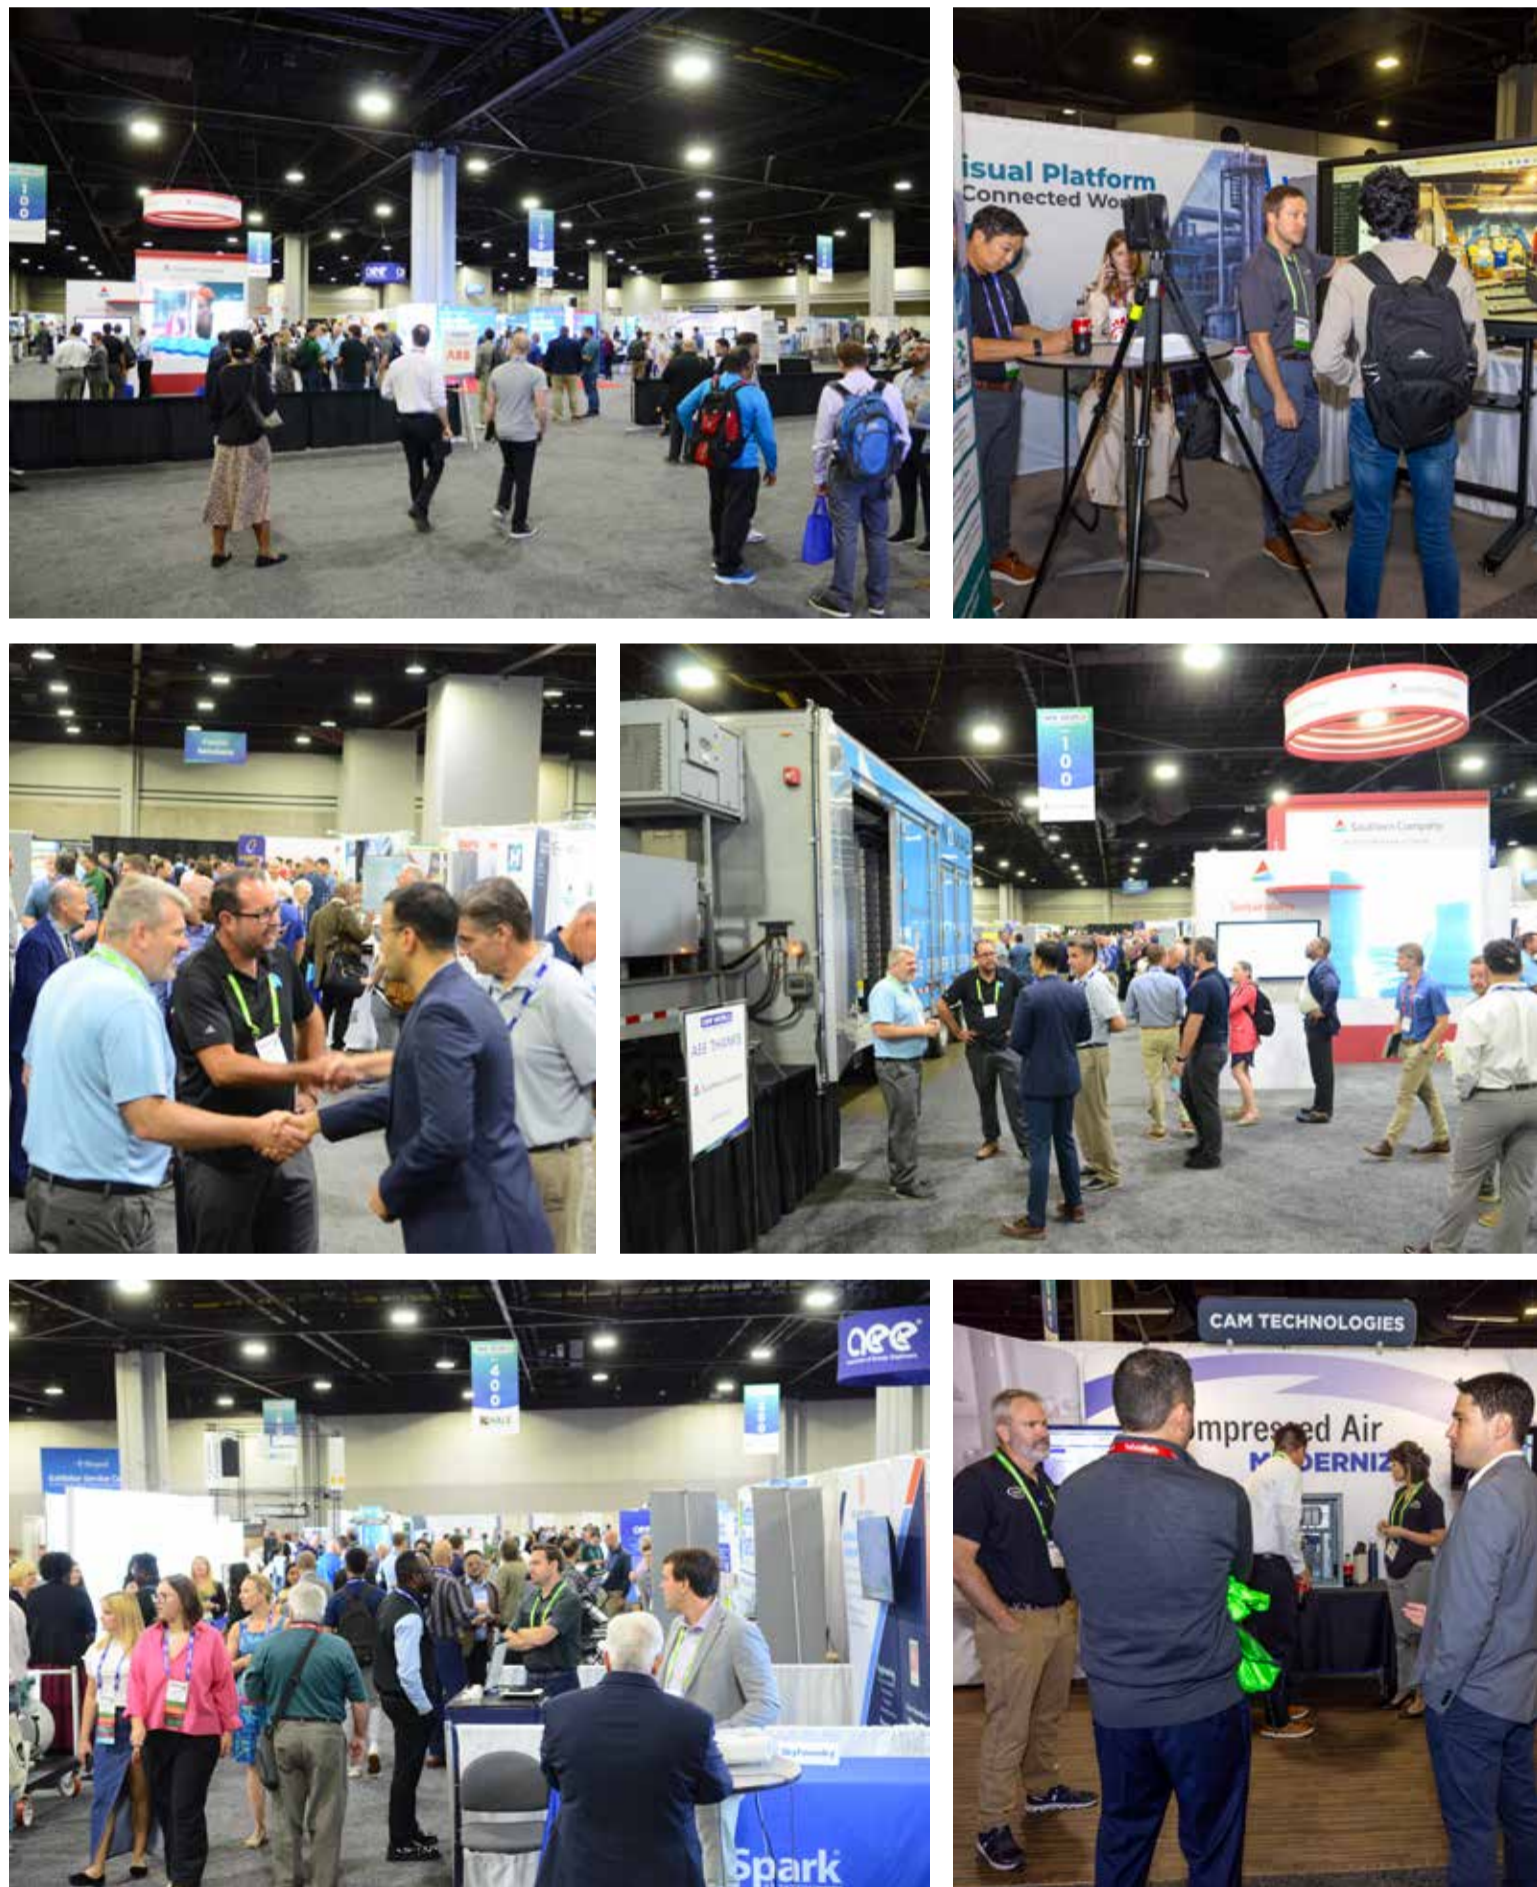

I really liked the Expo and the chances to discuss synergies and challenges with vendors.

80% of attendees are **very satisfied** or **satisfied** with the Expo.

Exhibitor Satisfaction

84% of exhibitors are **very satisfied** or **satisfied** with the Expo

Having a dedicated time for attendees to visit the expo, without competing technical sessions, significantly increased booth traffic and created more opportunities for engagement.

We liked the exposure to influencers and decision makers in the sustainability market.

The Wednesday evening networking sessions in the expo hall were excellent. They drove strong attendee traffic to our booths.

The most positive aspects for us were building brand awareness, making contacts and discovering opportunities.
